16. (2.1.08) The OSD of file that convert form MP4 file/files to jpg can't open
17. (2.1.08) Modify the errors of the output when converting a folder

Limitation

1. (2.1.08) If you don't convert .raw file to .avi file with using JPEG payload, the converting file cannot be added OSD on the video and the converted file will not be playback without ffdshow.
2. (2.1.08) Windows media player 11 will be recommended if converting to .avi file.
3. (2.1.11) When original raw file with H.264 payload converts to avi, the playback of the converted file might have A/V not sync, delay, fast forward or jitter.

Next Release

1. Supports multiple RAW file conversion into 1 AVI file
