[Support Package]

2-6 CAM-6600 Outdoor Type2 selection flow:

Step1: Select Camera model **Step2: Select Mount Type** **Step3: Get Bracket / Housing model number**

[Support Package]

Chapter3: Select dome cover

The below table shows what dome cover we provide in the standard package. If you would like to change the dome cover, you need to buy an additional one, instead of replacing the dome cover in the standard package.

If you need an additional dome cover, you could choose from the following two aspects.

3-1. Non-Vandal / Vandal:

A vandal cover can provide more protection against vandalism compared to a non-vandal cover. If you have concern about vandalism, please choose the vandal cover.

3-2. Smoke Cover / Clear Cover:

Smoke cover let others be unaware of where the speed dome is shooting. The camera performance is likely to be the same using either smoke or transparent cover. If you don't want others know where you are shooting, then choose the smoke cover.

Non-Vandal / Vandal	Non-Vandal Cover		Vandal Cover	
	Smoke	Transparent	Smoke	Transparent
CAM-6500 Series	61-PDH700108A1(5.4")	61-PDH700106A1(5.4")	N/A	61-PDH700109A1 (5.4")
CAM-6600 Series	69-PDH8111CS1	69-PDH8111CT1	N/A	69-PDH8111CV1

	Provided in standard package
	Need to place an additional order
